The Great Inter-University Race this Afternoon—Final Comments by the English Journals—By the Anglo-American Cable.

LONDON, Aug. 27.—A. M.—The newspapers today publish closing comments on the boat race which occurs this afternoon at 5 o'clock.

The Telegraph eulogizes the Elliot boat as light, fast, and graceful, travels well, and suits her crew.

The Americans More Powerful.—The Star says the Americans are individually more powerful than the Oxfords, but it is thought their training is not according to English notions of strictness.

The Advantage of the Oxfords.—The Daily News says, "Above all things we are anxious that the contest shall be sharp from first to last."

The Oxfords will defeat their gallant adversaries without difficulty. If otherwise, the Harvards must have an ovation, to show that we are not afraid to be beaten by our excellent cousins.

DEFEATED!

The English Crew Win the International Boat Race by Six Seconds—The Harvards Three Lengths Behind—The News in New York.

RECEPTION OF THE NEWS.

A large crowd thronged the office of the Western Union Telegraph Company, at Third and Chestnut streets, eager to catch the first particulars furnished by the Atlantic cable in reference to the international boat race between the Harvards and the Oxfords.

The first despatch, announcing the mere fact of the victory gained by the Oxfords, arrived just about 1 P. M., and was posted upon the walls, so as to be seen by all. It was quietly read, and no boisterous comments were made.

The Harvards gave up everything beforehand to the Oxfords, were the conversational utterances to be heard all around. At half past one o'clock the 2d edition of THE EVENING TELEGRAPH announcing the result was printed, far in advance of our slower-afternoon contemporaries, and the copies were snatched up eagerly by the expectant public.

THE NEW YORK MONEY MARKET.

The following extracts show the state of the New York money market yesterday:—From The Herald.

"The Money market was irregularly reported, with stock houses generally disposed to pay the full rate on call loans. The transactions were, however, numerous enough to make the quotation double, that is, from six to seven per cent, and the movement of the market was altogether exceptional sums at five. Commercial paper was in better request, particularly for the shorter dates, and the rates of discount were without change, remaining at nine to twelve per cent, for the choice grades. In the foreign exchange market transactions were limited and business slow.

"A great deal of interest is manifested in the result of the inter-university boat race in England to-day. A few small bets were made even.
